

Well Known Remedy Relieves Chronic Case

Important To Dispose of Waste
From the Stomach With
Regularly

People frequently attribute to failure of the digestive organs conditions that are primarily due to incentive bowels, and apply remedies that from their very nature are more apt to aggravate than to relieve the disorder.

When the bowels act regularly the stomach is in better shape to perform its allotted tasks and can usually be depended upon. To keep the bowels in condition there is no more effective remedy than the combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin which is sold in drug stores for fifty cents a bottle.

Dr. Caldwell has prescribed this remedy in his practice for over a quarter of a century and it is today the standard household remedy in thousands of homes. Mr. Thos. DeLoach, with the Department of the Interior, Office of Indian Affairs, at Washington, wrote Dr. Caldwell recently that "Dr. Caldwell's Syrup Pepsin is the best laxative I have

MR. THOS. DELOACH

any knowledge of and the cleaning up guaranteed by its use relieves every organ."

A bottle of Dr. Caldwell's Syrup Pepsin should be on hand in every home for use when needed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

WHEAT INCREASE SOUTHERN STATES SHOWN BY REPORT

Government Figures Give General
Decrease, But in South
Gain Made

Washington, D. C., May 16.—Commenting today on the report of the United States agricultural department on the condition of winter wheat as of May 1, President Harrison of Southern Railway company, said:

"From a southern viewpoint it is gratifying to note that, while the department figures indicate that the total crop in the United States will

be 155,765,000 bushels below the crop of last year, they indicate an increase of 3,044,000 bushels in the southern states traversed by the lines of Southern Railway company. Increases are shown for each of the states of Virginia, Georgia, Alabama, Kentucky, and Tennessee, and slight decreases in the states of North Carolina, South Carolina, and Mississippi. These figures afford another illustration of the tendency of southern farmers to get away from the one-crop system of farming and to strengthen the economic position of the south by growing a large proportion of its food supplies. The same tendency is strikingly shown by the marked increase in the number and improvement in the quality of live stock in every southern state, as was illustrated by a recent census of hogs in South Carolina, showing an increase of more than 150 per cent since 1910."

COLORED SCHOOLS HOLD EXERCISES

Oratorical Contest Will Be Held
This Afternoon

The colored schools of Anderson close Friday of this week. Plans for the closing exercises of the Reed street high school have been completed and are announced. The program is as follows:

Wednesday afternoon at 4 o'clock the temperance oratorical contest will be held. There will be two gold medals to be awarded the winners of this contest, that is to the pupil making the best relation on the subject of temperance. The ladies of the W. C. T. U., of the city award these medals. This has been the custom for some ten years and has done a world of good. The late Mrs. Blockley was very much interested in this work and requested that the work be carried on indefinitely. Her daughters are now interested in the work and are carrying it along as before Mrs. Blockley's death.

The teachers of the school will offer medals for the primary grades to be delivered at the same time. Thursday evening, the tenth grade, the graduating class will hold their commencement exercises and the following morning, certificates of attainments and diplomas will be awarded.

All industrial work will be on exhibit every day during the closing exercises. The exhibits will be in the industrial arts building on the grounds. All friends and patrons of the schools are invited to attend.

TAX ASSESSMENT.

Mr. James F. Rice Cites a Few Figures.

To the thoughtful, liberal and fair-minded people of Anderson county and the city of Anderson:

I wish to call your attention to some facts and figures which may be of interest to you and which you may not know of.

Mr. Allen D. Albert who lectured the week before last at the chautauqua, and took for his subject "The City of Anderson," said in the latter part of his lecture, "That the average assessment of property in the city of Anderson is sixteen and two-thirds per cent of its real or market value."

Mayor J. H. Godfrey at a city campaign meeting held in the court house on May 9, 1916, said:

"The average assessment of property in the city of Anderson is about sixteen and two-thirds to eighteen per cent of its real or market value, and 'excusing' the mill properties the average assessment will not be more than ten per cent."

According to deeds which I hold, I bought one lot in the city of Anderson in 1905 and five lots in the year 1906, and improved all the lots shortly after buying them. The following is a list of this property, the cost of each in round numbers and the location of same:

No. 1—Crayton street, No. 401 and 407, the cost of each lot and cottage on the same, \$1,300.00.

No. 2—Lyon street, No. 643, the cost of lot and cottage on the same, \$300.00.

No. 3—Falstaff street, No. 123, 125 and 129, cost of each lot and cottage on same, \$400.00.

No. 4—Extension of South Fant street, No. 1319 and 1321, the cost of each lot and cottage on same, \$400.00.

No. 5—Lindsey street, No. 119 and 121, cost of each lot and cottage on same, \$400.00.

The cost of all, including lots and cottages, \$5,700.00 in round numbers.

I have deeds as vouchers for the cost of each lot and I have checks as vouchers as to the cost of each cottage. The cottages having been a turn key contract, and the same is for inspection for any who may be interested.

According to my tax receipts the above property was assessed for the sum of \$2,500.00 up to the year 1910, and according to my tax receipts the above list of property have been assessed from 1910 up to the present time for the sum of \$2,300.00.

Are there any purchasers for cash for all of this property for the above sum, \$5,700.00? Are the assessors themselves willing to give me all cash, the sum of \$5,700.00 for the above list of property?

You will readily see from these figures that this property is assessed for a little more than three times the average assessment of property in the city of Anderson, according to Mr. Albert and Mayor J. H. Godfrey, and "excusing" the mills, for nearly five times the average assessment of property.

I will here say for the information of those who may not know that there are three county assessors in the city appointed by the governor on the recommendation of the county auditor, and there are also three assessors for the city, elected by the city council. At the present time, Messrs. S. D. Brownlee, W. W. Robinson and W. S. Ramsey are the county assessors for the city, and Messrs. S. D. Brownlee, W. W. Robinson and B. P. Vandiver are the city assessors.

How long will a patient and fair minded public wait for the proper adjustment of matters of this kind? Shall I say more? I rest.

Respectfully submitted to the thinking and fair minded public.

James F. Rice.

Argument Against Procrastination.

It is conservatively estimated that at least 100,000 applicants for life insurance were rejected by the old-line companies during a single twelve-month period. In all probability the greater proportion of those whose applications were declined last year could have secured the protection sought if they had applied for it earlier in life. This statement of facts, the Insurance Post says, is an unanswerable argument why a "prospect" should not defer making application for a policy while he is yet acceptable.
